BISHOP AI · AIOS

AIOS Source Repos

Every outside GitHub repo given to the AIOS to learn from or run on, and what each one powers.

Compiled 22 October 2026 from past sessions and the .claude folder. Updated 3 November 2026.

23	17	6
repos in total	sent directly by Rich	came in with other installs

What they power

The 23 repos grouped by the part of the AIOS they feed.

7 — **Video and audio**
Editing, HTML to video, lip sync, music, AI video, sound effects

6 — **Design and UI**
Style presets, the design gate, motion polish

4 — **Research and data**
Scraping, lead research, reverse engineering

4 — **Platform and tools**
Skills, plugins, Google Workspace

1 — **Memory and context**
Lean context

1 — **Writing**
Strips AI patterns from copy

When they arrived

The 17 repos sent directly, 24 September to 3 November 2026.

The starter list

REPO	WHAT IT POWERS
karpathy/autoresearch Windows fork in ~/projects	Autonomous research loop, plus the autoresearch agent skill
googleworkspace/cli	The gws command line for Gmail, Drive, Sheets and Calendar (v0.22.5)
anthropics/skills	Anthropic's official skills, including skill-creator
mksglu/context-mode	Keeps large tool output out of the context window (MCP plugin)
Leonxlnx/taste-skill	Design style presets: image-to-code, minimalist, brutalist, frontend imagery
blader/humanizer	Strips AI writing patterns from all copy
anthropics/claude-plugins-official	Official plugin marketplace
nextlevelbuilder/ui-ux-pro-max-skill	Design database behind design-intel: styles, palettes, fonts, UX rules
pbakaus/impeccable	Craft rules and the design gate every HTML deliverable passes
browser-use/video-use	Video editing helper (kept as a backup to video-editor)
amaancoderx/npxskillui	SkillUI: pulls a site's design system for design-extract

Added one at a time

Each sent with "add this to my AIOS".

REPO	WHAT IT POWERS
scrapy/scrapy 1 October 2026	Web scraping (scrapy skill)
morluto/rea 15 October 2026	Reverse-engineers apps and sites to see how tools work (reverse-engineer-anything)
emilkowalski/skills 22 October 2026	15 motion and UI polish skills, run on every website build
Lightricks/LTX-Desktop 1 November 2026	AI video from text, images or audio, run on your own GPU (saved for the VPS move)
lemomo-ai/lemo-opuscar 1 November 2026	Draws the animated boards in every short, one look per A/B version
Leonxlnx/earshot 3 November 2026	Every sound effect in every video edit, made in code, plus a listening check on each finished cut

Came in with other installs

Pulled in while building a skill or tool, not sent on their own.

REPO	WHAT IT POWERS
obra/superpowers	Planning, debugging, testing and review workflows (plugin)
heygen-com/hyperframes	Turns HTML into video (hyperframes skills)
Panniantong/Agent-Reach	Reads social platforms for lead research (agent-reach)
ehmo/platform-design-skills	Platform design rules used by design-sources
joonson/syncnet_python	Checks lip sync on rendered video
ACE-Step/ACE-Step-1.5	Local music generation
